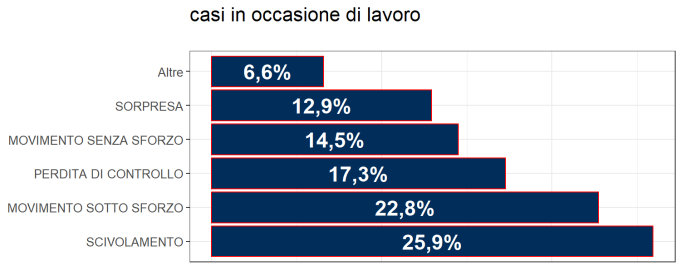
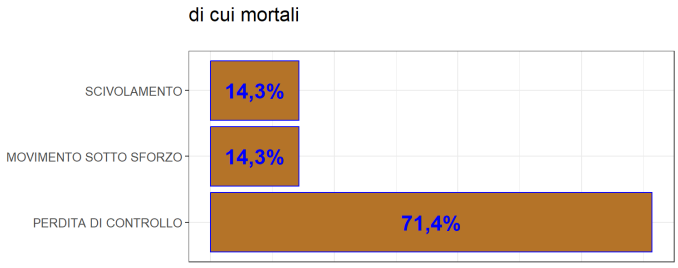
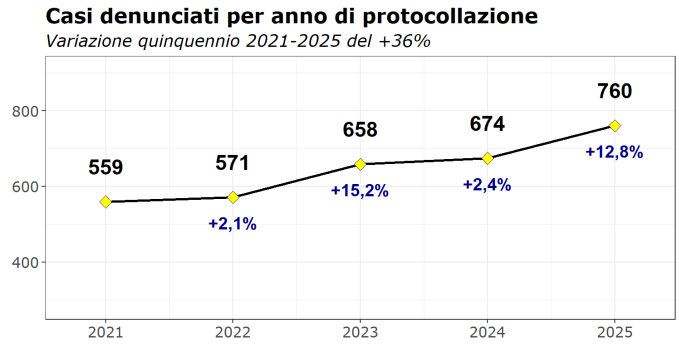
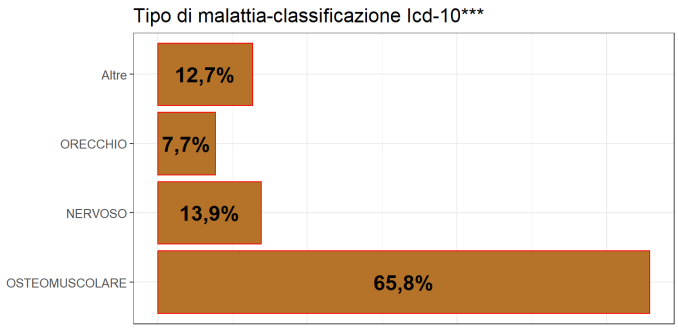
Cause e circostanze,Variabile Esaw/3**. Deviazione Infortuni definiti positivamente (casi codificati). Triennio 2023-2025

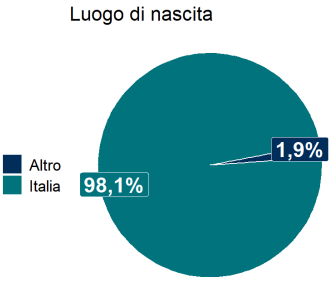


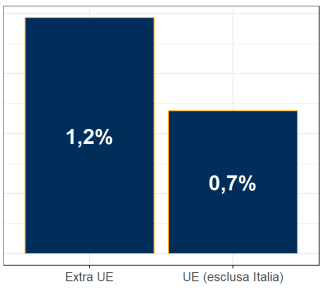


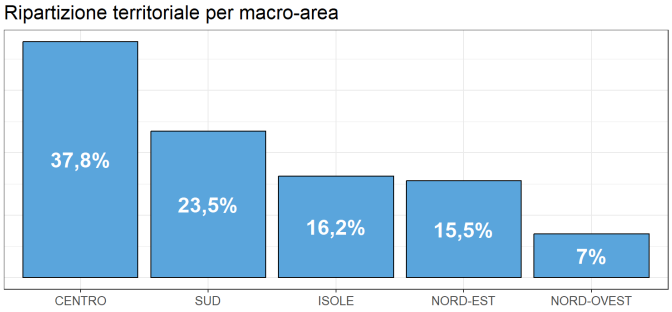
Caratteristiche Malattie professionali denunciate nel quinquennio 2021-2025

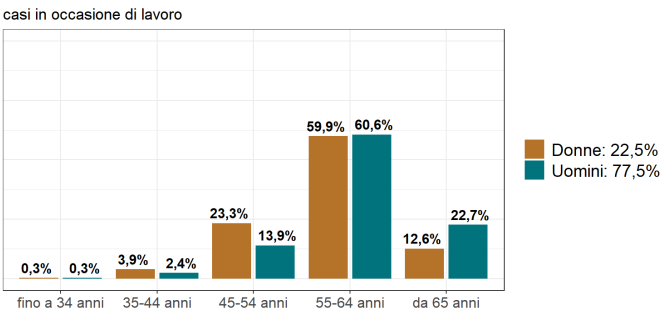


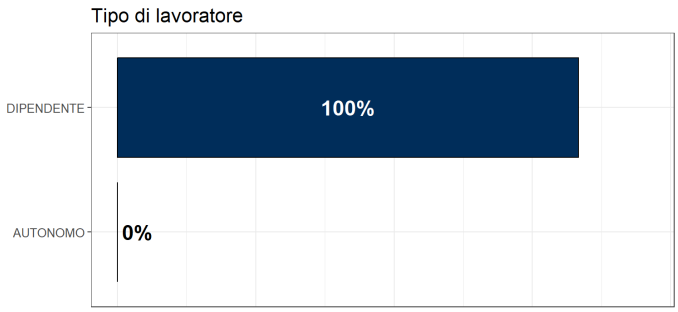


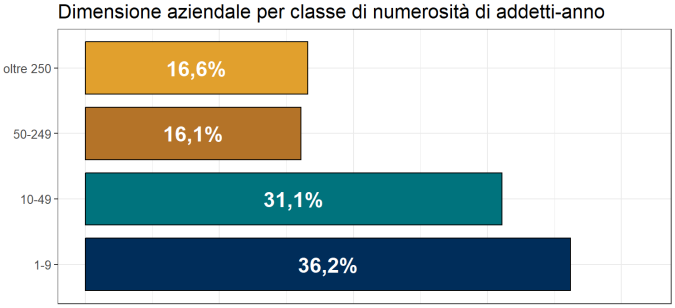












N.B. Il totale dei valori percentuali calcolati può risultare non uguale a 100 a causa degli arrotondamenti. Le percentuali sono arrotondate alla prima cifra decimale; per i valori interi non è riportato alcun decimale. Per ogni ulteriore specifica su asterischi e approfondimenti si rimanda alla pagina del Glossario.
